

Day : 1

English is a **language** — one of the most widely spoken and written languages in the world.

Here's a quick breakdown:

1. **Origin:**

- English started in **England** over 1,400 years ago.
- It evolved from **Old English** (spoken by early Germanic tribes) to **Modern English** that we use today.

2. **Type:**

- It's a **West Germanic language**, related to German and Dutch.
- Over time, it has absorbed many words from **Latin, French, Greek, and other languages**.

3. **Use:**

- It's the **official or secondary language** in more than **70 countries**.
- It's often used as the **global language for business, education, science, and technology**.

4. **Forms:**

- There are many accents and varieties — like **British English, American English, Indian English, and Australian English**.
